Gents:—Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began te show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good twoir scheit." IRON BITTERS, responded "that is a good tonic, take it." ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

The special file was taken up, the first bill being A. B. 128, to divide the State into Assembly Districts, and to provide for the election of Assembly-Whitney presented a protest signed by all the Re-

special order for to-day immediately after the reading of the journal.

Considerable discussion arose on the question of receiving the protest presented by Whitney. On motion of Kellogg the protest was ordered to be entered upon the journal.

Campbell's A. C. R. 21, proposing an amendment to Section 9 of Article XIII. of the Constitution, enlarging the powers of the State Board of Equalization, was refused a first reading.

A. B. 32, to establish a State Board of Horticulture, was read a first time; also, S. B. 372, to establish a State Board of Silk Culture.

Johnson moved that the last-named bill be declared a case of urgency and placed upon its second reading.

reading.

There being no quorum present, a call of the Sentate was ordered. It being a quarter past 12, Vrooman moved that further proceedings under the call be dispensed with in order to take a recess.

The motion prevailed, and then the Senate refused to take the recess, taking up the rest of the time in the discussion of the proper motion to make in order to read a bill three times on the same day. After recess the confirmation of ex Governor Irwin as Harbor Commissioner came up as the special order.

be postponed until Wednesday next at 2 y'cleck.

McCarthy and McClure opposed the postponement and Reddy favored it.

The motion prevailed by a vote of 28 ayes to 10 aces, the vote being a strict party one, except that Zronan and McCarthy voted with the Republicans.

McC'ure gave notice of a motion to reconsider.

A message was received from the Governor anouncing his approval of Sepate bills 59 53 54 and and the control of the con

The question then came on the motion of Johnson to suspend the constitutional provision in regard to the three readings of bills on different days, for the purpose of reading a second time S. The books are well kept thing in proper cond tion. The books are well kept and neatly and conveniently arranged. The increase in number of volumes by additions to the various departments has been very considerable, and we take pleasure in observing that the purchases made are of works of intrinsic merit and permanent value, and adapted to the purpose of making this chiefly a reference and scientific library. We find the books, both of record, of purchases and donations and of finances, properly kept, and the proper vouchers for all the money paid out, and the bills properly audited by the President of the Board of Trustees. The system of keeping accounts adopted by the present Librarian is neat, terse and accurate, and is much to be preferred to the former method. Judge Irwin having discovered the error this morning, had the House pass a resolution requesting the Senate to return the bill to the Assembly.

Hollister's bill to prevent the spreading of fruit tree pests and diseases, and to provide for their extirpation, was read the second time.

At the afternoon session Nicol moved a suspension of the rules and taking un out of order for consideration A. B. 162, amending the Code of Civil Procedure relative to the granting of injunctions. Carried. The bill was then read a second time, ordered engrossed and to a third reading, and made a special order for 10 A. M. to-day.

Caminetti moved to take up out of order A. B. 508, amending the Political Code relative to public

schools. Carried.

Read the first time, ordered to a second reading, and made a special order for 11 A. M. to-day.

Storke moved a suspension of the rules and the consideration of S. B. 355 an Act amending the Act creating the Hastings College of the Law in the Univers ty of the State of California. Carried. The bill was read the first time.

On motion of Cutter it was declared a case of urgency, and the bill read a second and third time and passed by 60 ayes and only one opposing vote.

The Governor informed the Assem' by that he had approved A. B. 140—the oleomargarme bill.

Flynn and Sinon asked that the bill be allowed its first reading.

Keeler opposed it, and intimated that the little "joket" was concealed in the bill. Lost.

Caminetti, moved to suspend the rules to take up from the first reading file 8. B.'s 188 and 189, declare it a case of urgency, read them a first and second time, and put them on their final passage. These bills provide for thainvestment of the moneys derived from State school lands in the bonds of the several counties of the State. The bill was read the third time and passed.

Irwin, on motion, secured the taking up and reading A. B. 327, repealing the Code relative to pharing A. B. 327, repealing the Code relative to pharmacy, a second time.

A. B. 163, introduced by Flynn, an Act to declare when a vacancy exists in an elective or appointive office, Board or Commission, of any county, city, city and county, township, or municipality, and provide for the filling of the same, was taken up on the regular file for a second reading.

Flynn took the floor, and in a strong, exhaustive argument favored the second reading of the bill. In his remerks he referred to Mr. Barry of San Francisco, who is opposed to the bill, and charged

In his remerks he referred to Mr. Earry of San Francisco, who is opposed to the bill, and charged him with inconsistency.

Barry replied to the remarks of Flynn, and referred to the frequent whipping into the traces for political purposes of certain members, and included among the bosses his colleague. He spoke for a considerable time, and pointed out "bject" ons to the bill. He claimed that the bill, as originally framed by the author, was bad legislation, and a menace to the lives and property of the city of San Francisco. by the author, was bad legislation, and a menace to the lives and property of the city of San Francisco. He referred to the people who were present from San Francisco in the interest of this bill, and claimed that they did not represent the tax paying or re-spectable elements of that city. They meet you, he said, in the lobby as you come in and go out, and their interest in this bill is well known not to be for their interest in this bill is well known not to be for the public good. Their presence here and their actions plainly indicate their business.

Booth was opposed to the bill first, last and all the time. It was a mere political dodge, and in the interest of Democratic patronage. The bill was neither required nor desired by the people of San Francisco.

Leverson advocated the second reading of the bill. He charged that the police force of San Francisco was corrupt, and referred to many unlawful acts of the Commissioners and policemen.

hear him, and the Speaker thereupon directed the Clerk to enter in the journal that member as voting age instead of may. By this change in the record the bill would have had the constitutional majority. The journal was then, by consent of the House, changed to meet the correction. Against this a protest was entered by several members, and an appeal from the decision of the Chair, allowing the change of entry to be made, was tabled. A written protest was then offered, signed by twenty-three members, that appears to be in due form and properly worded. Certainly it passes our comprehension to discover in

that appears to be in due form and properly worder. Certainly it passes our comprehension to discover in it anything at all disrespectful. It is just such a protest as should have been entered, if the right to protest is conceded at all, and even if not in every protest is conceded at all, and even if not in every particular correct, it was not discourteous. But the Speaker refused to receive it; not because it was not the right af the protestants to have it entered, but because, he held, it was discourteous to him. Now it develops that the gentleman whose vote has cast such doubt on the whole proceeding is satisfied that he was in error in changing the record of his vote, and that he really did vote nay. If that is a fact, then it is also a fact that the bill by which the apportionment was made never reby which the apportionment was made never received the vote required by the Constitution, and
is therefore improperly in the Senate, to which it
was sent as a properly passed bill. There can be no
doubt that the House has the right to correct errors bill.

The President ruled Kellogg's motion out of order, Johnson moved that the further reading of the bill be dispensed with, the rules suspended and the bill considered read a second time.

The motion prevailed by a vote of 23 ayes to 11 nocs.

The bill was then ordered engrossed and its third reading made the special order for to day at 2 o'clock r. M.

Lynch asked leave to make a report from the Committee on Commerce and Navigation, in accordance with the instructions of the Senate.

Vrooman raised the point of order that the report could not be received out of order without a two-thirds vote.

The Chair ruled that the point of order was not well taken.

Lynch then presented two reports on the bill in regard to the Harbor Commissioners. One, signed by Ryan, McCarthy and Whitney, proposed to amend it so that it should not take effect until the first Monday after the 1st day of January, 1881. The minority of the committee, Lynch and Nelson, proposed to amend it so as to make the salary of all the Cemmissioners \$250 per month instead of \$225.

Taylor moved to suspend the rules and read the bill a first time.

McClure and Vrooman spoke earnestly in favor of adhering to the regular order of business. They insisted that the bill proposed to be taken up was simply to legislate a few Republicans out of office, and to compel the people to pay taxes for the care.

A PRACTICAL WAY TO REDUCE CITY EXPENSES

There is a speedy and unembarrassing way out of the financial difficulties in the conduct of the city departments, without increase of taxation. We have shown that high license is feasible; that it is practiced elsewhere; that in few places in the Union is the liquor license so low as in Sacramento; that under what we have termed high license, the rate will then be far less than is required in many other localities in the country. Elliott, the Pugilist, Shot and Killed.

CHICAGO, March 1st.—Between 8 and 9 clock to-night Joe Elliott, the pugilist, and Jere Dunn, a well known sporting man, and man about town, met in the saloon and res taurant of William Langdon, alias, Apple ton, alias "Appetite Bill," an ex-bunko and confidence man, and began shooting, with the result that Elliott was killed and Dunn wounded in two places. The trouble dates back to the time when Harry Hill and others came here from New York to meet Jem Mace and Slade, with a view of arranging a match with John L. Sullivan, whose backer was Jere Dunn. At that time Elliott, backed by Parson Davier, was seekng to make a match with the Maori. Harry Hill, when somewhat mellow, was interviewed, and in the course of the talk reflected severely on Elliott's courage. Elliott began hunting for Hill, who immediately took the train for New York. Ellliott, in an interview, said Dunn had incited Hill to make these remarks, in order to cause a quarrel be-tween himself and Hill, in order that Dunn might have an excuse to shoot him (Elliott) Dunn, in a subsequent interview, let it be understood that he would shoot Elliott on sight, and as he is a man of unquestionabl nerve and determination, no doubt was felt that a shooting match would occur whenever the men met. To-night Elliott and Plaisted the oarsman, entered "Appetite Bill's place to get something to eat, and shortly after Dunn entered. Accounts differ as to the subsequent proceedings. #### WEATHER COMPARISONS.

The following comparisons of the different meteorological records at this station for February from 1878 to 1883, prepared for the Women Coming from Ireland-The Idaho RECORD UNION by Sergeant Barwick, show the past month to have given the highest and the lowest temperature for that month, and the least rain of any February since 1878 ; also less wind. There was a greater prependerance of northerly winds than usual. Out of 84 observations the sums of the northerly winds, observations the sums of the northerly winds, which includes those blowing from northwest, north and northeast, for 1878, in February, was only 16 out of 84; 1879, 26 out of 84; 1880, 38 out of 84; 1881, 25 out of 84; 1882, 28 out of 84, while February, 1883, gave 45 out of 84 observations, showing more than half of that number of observations the wind was blowing from some north.

William Governeur Morris, Collector of Customs, at Sitka, is in Washington. Mor-ris has been notified that his place is wanted, and he has been given two months in which to close his accounts and step out. Senator Miller has recommended the appointment of ex-Collector Shannon, of San

Francisco, in Morris' place. The historical costume ball in honor of the silver wedding of the Crown Prince and Princess was held in Berlin Wednesday ni.ht in the old palace, and was carried out with great pomp and splendor. Nearly all the German Princes and Princesses were present, representing different historical characters.

The event was a great success. Senator Miller has secured from the Senate Appropriations Committee a recommendation for an increase in the sundry civil bill of the

Quotations of No. 2 grades Wheat at leading centers to day are telegraphed as follows: he St. Louis and New York figures are for Red Win-

Barley—The market is quite feverish. The buoyant tone that prevailed yesterday morning was further intensified during the day, and a still higher standard of values was established before the close of business. This morning matters looked uncommently well for the holding interest. The weather was clear, dry and warm, without the slightest indication of rain. Such an opportunity was not lost by the buil interest, who for a time shaped the situation and sent prices ratiling upward. But a check was given to the impetus by the opposite interests, who united their forces and sent the market cown as racidly as it had previously advanced. For instance, April opened at \$1.42, jumped to \$1.44, declined to \$1.41 with sales, and was seeking custom at the close at \$1.40, with \$1.36 only bid. May went from \$1.40 to \$1.43, tumbled to \$1.39, and was subsequently offered in vain at \$1.33. Buyer-theseason contracts were an enigma. The opening figure was \$1.47\frac{1}{2}\$, but one or two sales quickly upshed the price to \$1.52, when, in almost a twinkling, sales were recorded at \$1.45. Spot Brewing is nominally worth \$1.50. \$2 ctl, with light inquiry. Merits of Barbed Fence:

It is the cheapest fence made; the most durable; it is not affected by fire, wind or flood; does not cause snow-drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept from it; requires but little labor to put it up; you can draw enough at one load to fence a farm; you can fence a good-sized farm in a day; it is the greatest practical invention of the age; and has come to be the farm and railroad fence of the country.

We advise every one who wishes to purchase wire, and wants the best, to buy the CACTUS BARB, as it contains all the favorable fe tures that are required, and none of the objectionable ones. It is made only from the best annealed steel, fully warranted, either galvanized or painted; put up in spools of from 100 to 120 pounds each. Remember, it will not exceed 17 ounces per rod.

### REMOVED EYERY SYMPTOM

Swift Specific Co., Atlanta, Ga.:

I have delayed thus long in writing because I wanted to make "assurance doubly sure" in the trial of S. S. S. in my own case, and am most happy to report that it has entirely eradicated every symptom of the disease from my system. Had I followed the advice of Tem Swift in years gone by, it would have saved me ten years of intense suffering. I have not felt the least return of the disease, and can fully and truly recommend S. S. S. to all suffering from the scourge, and especially to the physicians in Macon, who knew my condition; and when I can positively sesure them that it has not only relieved me of rain, but has entirely removed every symptom of the disease from my system, it ought to convince even them of its in.

kind should suffer from the prejudices of
physicians to anything not laid down in the
text books. Let me assure you of my gratitude, and believe me ever, tude, and believe me ever, Yours truly, R. C. M.

About four or five weeks ago I was afficted with a very aggravated type of Blood Disease. I commenced using S. S. S., and after taking the first bottle, felt so much relieved that I bought five more, and am glad to say, after using four of hem, that I am entirely cured, previously having been under medical advice for several months.
